

PXE-DCM+

IR Display Control Wall Module

The Pixie is a single-gang AV control device that enables control of a projector. It is an easy to install IR control wall module that will work with any of our Mitsubishi projectors.

- Program your remote control IR commands directly to your wall module
- Simple to install and configure
- Customizable insert modules supports simple On/Off, Volume Up/Down, and Source selections
- Allows for a variety of configurations from two to eight total buttons
- Low voltage device
